David P. Barry
President, Nuclear Division of the Power Group

August 4, 2008

The Honorable Dale E. Klein
Chairman
U.S. Nuclear Regulatory Commission
Mail Stop O-16 C1
Washington, DC 20555-0001

Dear Chairman Klein:

Shaw Power Group is currently working on approved contracts to deliver the next generation nuclear power plants. In accordance with 10 CFR Part 73 Shaw needs authorization to handle and control Safeguards information. Authorization is needed for Shaw to assist our clients in the engineering and construction of nuclear power plants, in conformance with Nuclear Regulatory Commission security requirements. We are requesting this authorization from the Nuclear Regulatory Commission.

Shaw's personnel access authorization for safeguards information has been sponsored by Westinghouse Electric Corporation, as well as certain licensees for whom we are providing Independent Spent Fuel Storage Installation (ISFSI) and other specific services. The arrangement with Westinghouse and individual licensees will not be adequate for the significantly expanded scope of our new reactor services and the number of new reactor licensees to be supported. Therefore I request that NRC authorize Shaw Nuclear Division of Shaw Power Group to control safeguards information under its own program.

We are prepared to implement the necessary program as soon as authorization is received from the NRC. I would appreciate your assistance in expediting this authorization. Please contact me if you would like to discuss this further, or have your staff contact Mr. George Seibert at 617-589-2279.

Sincerely,

David Barry
President - Nuclear Division, Shaw Power Group
