Q-2

Re: NRC License 45-14837-01 03007643

Mr. Lodhi;

Per our phone conversation this morning, I am writing to correct two items concerning the DuPont Teijin Films materials license.

1. The site Radiation Safety Officer is currently David R. Van Aken. Douglas Sowards has transferred to another DuPont site.
2. As an addition to a May 2008 letter, the site is still using and holding Krypton 85 sources, which are used in our thickness measurement gauges. I believe I interpreted Order EA-07-305 as not to require Krypton 85, since it was not listed in Table 1 of the order.

Please accept my apologies for the discrepancies noted.

David R. Van Aken
