#### ROCK CORE LOG

PROJECT: Progress Energy Florida - COLA Investigation, Levy County Site LOCATION: 1724149.3 N, 457766.2 E (NAD83)

START: 2/25/2007

**DESCRIPTION** 

DEPTH, TYPE, ORIENTATION, ROUGHNESS, PLANARITY, INFILLING MATERIAL AND

THICKNESS, SURFACE STAINING, AND TIGHTNESS

81.1-81.3' - Clay seam, poorly to moderately

81.3' - Fracture, horizontal, rough, undulating

83.7' - Fracture, horizontal, rough, undulating

84.0' - Fracture, 45 deg, rough, undulating to

84.6' - Fracture, horizontal, rough, undulating

84.7' - Fracture, 45 deg, rough, planar, some

87.0' - Mechanical break, horizontal, rough,

87.7-88.2' - Fracture zone, discontinuity with

88.8' - Fracture, 10 deg, rough, undulating,

89.3, 89.5' - Fractures (2), rough, black to

associated with larger voids/solution cavities

89.6' - Fracture, horizontal, contact with silty

89.8' - Fracture, 30-45 deg, rough, multiple

91.0' - Fracture, rough, break associated with

92.0' - Mechanical break, horizontal, planar

fracture edge, (pyrite-organics) 92.8, 93.2, 93.8' - Fractures (3), horizontal,

rough, stepped, loose, silty sand material on

undulating, parting along fine lamination, dark

95.1' - Fracture, 60 deg, planar, loose sand

97.1' - Fracture or mechanical break, 60 deg, rough, undulating 97.6' - Fracture or mechanical break,

98.3' - Fracture, 45 deg, rough, undulating,

98.6' - Mechanical break, rough, undulating,

99.8' - Fracture, 50-60 deg, rough, planar

material, fine grained pyrite on surface

95.1-96.0' - Fracture zone, limestone

92.2' - Fracture, 45 deg, rough, planar 92.21' - Fracture, horizontal, black coating on

dark brown staining, irregular fractures

90.3' - Mechanical break, horizontal

94.5' - Fracture, horizontal, smooth,

brown color, friable zone

horizontal, rough, planar

99.2' - Fracture, 60 deg, planar 99.4' - Fracture, 15 deg, rough, undulating

planar, tight, dark black/gray fine grained

82.6' - Fracture, rough, stepped, fine sand

DISCONTINUITIES

PROJECT: Progress Energy Florida - COLA Investigation, Levy County Site LOCATION: 1724149.3 N, 457766.2 E (NAD83)

START: 2/25/2007

DESCRIPTION

DEPTH, TYPE, ORIENTATION, ROUGHNESS, PLANARITY, INFILLING MATERIAL AND THICKNESS, SURFACE STAINING, AND TIGHTNESS

175.45, 175.6, 175.8, 175.85, 175.95, 175.98,

smooth, undulating, crystals on surface, tight

177.25, 177.5, 177.55' - Bedding plane (3), horizontal, smooth, undulating, crystals on

177.65' - Bedding plane, <10 deg, smooth, undulating, open 1/4"-1/2"

177.8' - Bedding plane, horizontal, smooth,

179.0' - Bedding plane or mechanical break,

horizontal, rough, undulating, open 1/2"-1"

horizontal, rough, undulating, tight to open

180.2-180.3' - Bedding plane (2), horizontal, smooth, planar, tight to open 1/8" 180.25' - Fracture or mechanical break,

180.45' - Bedding plane, <10 deg, rough, undulating, open 1/4"-3/4" 180.6, 180.8' - Bedding plane (2), <10 deg,

182.15, 182.5, 182.6, 182.85,' - Bedding

plane (4), horizontal, smooth, undulating,

183.7, 183.77, 183.9' - Bedding plane (3).

horizontal, smooth, planar, open 1/4"-1/2"

184.4' - Bedding plane, horizontal, smooth, planar, open 1/8"-1/4"

184.45' - Bedding plane, <10 deg, smooth,

184.65' - Bedding plane, horizontal, smooth, planar, open 1/8"-1/4", dark staining

185.2' - Bedding plane or mechanical break,

<10 deg, smooth, undulating, open 1/8"-1/4" 185.6' - Fracture or mechanical break, 20

185.61' - Fracture or mechanical break, 70

187.3-187.5' - Fracture zone, rock fragments

187.55, 187.8, 187.9, 188.05' - Bedding plane

(4), <10 deg, smooth, undulating, 188.05' has

189.25' - Bedding plane or mechanical break,

black stains, open 1/4" 188.8, 188.95' - Fractures or mechanical

break (2), 40 deg, rough, undulating, tight

189.35' - Bedding plane, <10 deg, smooth,

<10 deg, rough, undulating, tight

183.25-183.35' - Fracture zone, rock

184.10-184.20' - Fracture zone, rock

184.9-185.05' - Fracture zone, rock

deg, rough, undulating, tight

deg, rough, undulating, tight

fragments up to 1-1/2" fractures

179.85' - Fracture or mechanical break,

180.05-180.15' - Fracture zone, up to 1"

vertical, smooth, undulating, tight

rough, undulating, open 1/4-1/2

tight to open 1/8"

fragments up to 1"

undulating, open 1/8"

fragments up to 2"

to 1-1/2"x1-1/5"

planar, tight

176.05' - Bedding plane (7), horizontal,

177.0-177.05' - Fracture zone

START: 5/2/2007

**DESCRIPTION** 

DEPTH, TYPE, ORIENTATION, ROUGHNESS, PLANARITY, INFILLING MATERIAL AND THICKNESS, SURFACE STAINING, AND TIGHTNESS

73.95' - Fracture, 0-90 deg, smooth, stepped,

74.1' - Fracture, <5 deg, rough, stepped,

open, clay (brown) over 90% of surface

78.45' - Fracture, 0-30 deg, rough,

open, dark gray staining over 30%

80.43' - Fracture, horizontal, rough,

81.05' - Fracture, horizontal, rough,

<1/16" thick over 100% of surface

black organic stains over 15-20%

undulating, open, dark gray staining over

undulating, open, gravel filled

open, gravel filled

74.7' - Fracture, horizontal, rough, stepped,

77.1' - Fracture, <5 deg, smooth, undulating,

78.7' - Fracture, horizontal, rough, undulating,

79.65' - Fracture, 20 deg, rough, undulating,

tight, black organic film over 100% of surface

80.1' - Fracture, horizontal, rough, undulating,

open, dark gray staining over 30% 80.2' - Fracture, horizontal, rough, undulating,

undulating to stepped, open, brown clay lining

81.35, 81.5' - Fractures (2), smooth, planar,

82.35' - Fracture, horizontal, rough, stepped,

open, brown clay lining (silty and sandy), up

82.65, 83.6' - Fractures (2), <5 deg, rough,

86.7, 86.8' - Fractures (2), <5 deg, rough,

87.9' - Fracture, <5 deg, smooth, undulating, film of black organic stains over 100% of

87.95' - Fracture, 60-70 deg, rough, stepped,

stepped, open 89.42, 89.7' - Fractures (2), horizontal, rough,

88.25, 88.4' - Fractures (2), <5 deg, rough,

92.4' - Fracture, 40 deg, rough, undulating,

92.95' - Fracture, <5 deg, rough, undulating,

93.5' - Fracture, 80 deg, smooth, stepped,

91.15' - Fracture, horizontal, smooth,

92.4-92.95' - Fracture, vertical, rough,

DISCONTINUITIES

72.2' - Fracture, 80-90 deg, rough, undulating, extends to 72.45', open
