Subject: U.S. EPR Design Certification Application RAI No. 36 (553, 1026), FSAR Ch 9
Attachments: RAI 36 ICE1 553_1026.doc

Attached please find the subject requests for additional information (RAI). A draft of the RAI was provided to you on July 16, 2008, and discussed with your staff on July 24, 2008. As a result of that discussion the following changes were made:

1. Draft RAI Question 09.05.02-5 has been modified to request clarification of the sound powered phone system only.
2. Draft RAI Question 09.05.02-6 regarding 9.5.2 relates to section 9.5.2.1.3 which is erroneously titled as 10 CFR 50.47(a)(8), Equipment and Facilities to Support Emergency Response. The correct citation is 10CFR 50.47(b)(8).
3. Also, Question 09.05.02-6, as worded in the draft, requesting information on how table 1.8 will address this specific COL action item has been removed. The position identified during the telephone call that the chapter 13 reference is sufficient coordination is acceptable for this section since the SRP specifically identifies that verification of the subject section is to be performed under chapter 13 review; therefore, Draft RAI Question 09.05.02-6 has been reworded.
4. The location of the information requested in Draft RAI Question 09.05.02-9 was found to be correctly identified as a COL action item; therefore Draft Question 09.05.02-9 has been deleted.
5. RAI Question 09.05.02-11 has been added to request clarification of the use of radio systems in emergency offsite communications.

The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.

Thanks,
Getachew Tesfaye
Sr. Project Manager
