Tom:

From Eric's message, now you know at least part of what we were busy doing yesterday while you and I were playing phone tag.

Your phone message mentioned a call around mid-morning. I will plan to be in my office from 10:30 to 12:30 ET. If we don't catch up with each other then, I'll try you this afternoon. (Part of info I will be needing is your suggestion on hotels in the area.)

Talk to you later today.
Tami

Subject: site safety audit - hydrology

Tom,

Good morning! We had previously discussed the scheduling of the site safety audit on hydrology for the week of June 9th. Most of our folks that need to be involved in that effort will not be available during that week. A proposal was presented to me to schedule the site safety audit during the same week as the environmental site audit and scoping meeting. This seems to work out much better schedule-wise for our folks. A "strawman" for the safety portion of audit is provided below. I'd appreciate your feedback on how this new proposal would fit with the schedule availability for the folks that you'll need to have involved in this audit. Thanks!

Eric

Here's the strawman schedule:

June 15, Sunday: travel day

Monday: Site tour in AM (organized thru Enviro). Kick-off Safety Audit (location=Jackson)

Tuesday: Safety Audit (Jackson). Hydros not involved in Enviro Audit can leave that night.

Wednesday: Hydros start Enviro Audit in AM. Meet with Fed & State folks in PM.

Thursday: Enviro Audit. (note: hydros do not attend the scoping meeting)

June 20, Friday: Enviro Audit. Fly home that night.
