Subject: Grand Gulf Potential RAI on SRP Section 3.7.1

A potential RAI was discussed by Mark Tonacci with representatives of Grand Gulf regarding the proposed new reactor on 7/22/08 in a telephone call at approximately 9 am. In the COLA, section 3.7.1.1 additional information may be requested in the RAI to support the adequacy conclusion for items "a", "b", "c", and "e". Applicant representatives noted that most of these information was developed by GE-H for Grand Gulf and that additional subject matter expert discussions may be necessary.
