Subject: RE: Audit Kickoff

Tami,

I will use this version of the schedule to add in the scheduled interactions.

As far as the kickoff – I was going with 3:30 to be conservative – but 3:00 might work.

I have a draft kickoff agenda in internal review currently. As soon as it is approved internally, I will plan to send it to you for input.

As far as the transmission presentation – it is currently slated as the last topic of the kickoff. My was thinking was as you state below –

allowing whomever to depart the kickoff meeting and only those interested in Transmission to stay and listen.

Thanks,

Amy

Amy:

Also my apologies about not getting my updates to you yesterday. We had a monsoon here and computers were glitching. I was working on the audit schedule file and it became corrupted during the glitches. So - back to the drawing board this morning.

I have gone through and tried to make updates to reflect some of the discussions we have recently had. Please let me know anything you see that conflicts with your understanding. I have sent off to Darby and Terri at PNNL for their input as well.

Discussion points:

I know times of return to Entergy on day 1 are up in the air but I felt a 3:00 time for kick off was reasonable???

Let me know as soon as you have the agenda for kickoff and I'll insert brief summary in the review schedule. Did you have intentions of the entire group to be present for the introductory transmission discussions you mention in your email? The Rad Health, Socio Econ and Met/Accidents groups probably don't need to be part of that so I was thinking that presentation would be after the main kickoff. Is that what you meant?

I considered removing our 5:00 team debrief from the first day, but I'll leave it in for now. Will probably be very brief, just a reminder of the next day's activities, etc.

I hope I have all attendees by day entered correctly. Note I added the EPA representative and I know he will not stay past Tuesday afternoon.

Thursday afternoon wrap up - I have indicated times that would be reasonable should the few attendees present that day chose to attend the evening scoping meeting. It is optional and I think hydrologists have indicated they will not be attending.

Friday is an interesting animal. I will need to have about an hour and a half with the team to catch up on the Thursday close outs from each of the discipline areas. I have then scheduled informal discussions with Guy and Tom before we have the "formal" close out. I will discuss this with Guy today. (Not sure if I have the terminology correct - I've been more interested in focusing on the exact information I need from the discussions to quickly process and relay to everyone at 9:30AM and then at 10.)

Just let me know times you come up with for scheduled interactions and we will set them in. I will be constructing a more detailed outline as well.

I'm heading to Germantown in about an hour. Should be interesting.

Thanks.
Tami

Tami – For the Audit Kickoff, I am putting together an agenda. I believe you said you had some things you wanted to go over/discuss as part of the kickoff? If so, could you let me know what they are and I will add your information to the agenda. Also, would like to speak at the beginning or end of the kickoff? We have a brief presentation we will go through and of course, we will have the transmission presentation as well.

Thanks,
Amy
