SUBJECT: NRC INSPECTION REPORT 072-00058/08-01(DNMS) - MONTICELLO  
NUCLEAR GENERATING PLANT INDEPENDENT SPENT FUEL  
STORAGE INSTALLATION

Dear Mr. O'Connor:

On July 16, 2008, the NRC completed an initial security inspection at the Monticello Nuclear Generating Plant Independent Spent Fuel Storage Installation (ISFSI). The purpose of the inspection was to evaluate whether the facility was in compliance with the Monticello Physical Security Plan requirements for the ISFSI imposed by the NRC Order dated October 16, 2002. At the conclusion of the on-site inspection on July 16, 2008, the inspector discussed the inspection findings with members of your security staff.

This inspection consisted of a review and evaluation of the security programs for the ISFSI. Areas examined during the inspection are identified in the enclosed report. Within this area, the inspection consisted of observations of ISFSI security related activities in progress, interviews with personnel, and a select examination of procedures and representative records.

Based on the results of this inspection, the inspector did not identify any violations of NRC requirements.

This letter and its enclosure are exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present security vulnerabilities. Therefore, the material will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
