ORGANIZATIONAL INFORMATION CONTAINED IN TENNESSEE VALLEY AUTHORITY (TVA) QA TOPICAL REPORT, TVA-TR75-1A, REVISION 9

By your letter dated January 30, 1987 to S. A. White, TVA received NRC's acceptance of Revision 9 to the TVA QA Topical Report, TVA-TR75-1A. This revision contains organization descriptions which reflect TVA's restructured nuclear organization consolidating the responsibility for nuclear activities within one central organization under the Office of Nuclear Power.

Some revisions to the organization are being made and are reflected in the information now provided in the TVA Bethesda office. This information was discussed in a letter dated February 26, 1987, from me to B. J. Youngblood. It is TVA's position that these changes will not result in any degradation of TVA's ability to carry out the QA program and do not reduce program commitments. Therefore, these changes do not need to be submitted or approved by NRC as part of the QA program to support Sequoyah restart. When approved and issued, these organizational changes will be evaluated and submitted in a draft revision of the QA Topical or by letter as required by 10 CFR 50.55(f)(3) and 10 CFR 50.54(a)(3).

We have discussed these changes and TVA's position with H. Miller, B. Belke, G. Imbro, and A. Belisle of NRC.

Please telephone D. E. McCloud at (615) 751-4876 as soon as possible if there are any questions concerning this information.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
