We have made substantial progress in our recovery program since the publication of NUREG-1232, Volume 1, Safety Evaluation Report (SER) on the TVA Corporate Nuclear Performance Plan (CNPP) - Revised. This has prompted me to forward herewith revisions to the CNPP.

This revision includes a general updating of personnel now filling key positions within TVA's nuclear organization, incorporates TVA's response to NRC's request for additional information dated April 22, 1987, referenced in the SER, and reports on the progress we have made in each programmatic area. I am confident that the implementation of our programmatic improvements is sufficient to support continuing TVA nuclear activities including plant operations.

TVA believes that the changes incorporated by revision 5 to the CNPP are consistent with the basis for NRC publication of the SER, and therefore your conclusions remain valid.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
