You, Alan E. Skolnick, MD, FACC, have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the RADIATION PROTECTION PROGRAM; identifying radiation protection problems; initiating, recommending, or providing corrective action; verifying implementation of corrective action; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet these responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend three hours per week conducting radiation protection activities.

Baxter Burton, CEO
