Subject: Amendment to NRC License # 50-29111-01
Docut #: 030-34474
Control #: 47183

Dear Ms. Browder:

In response to our original request for an amendment of our nuclear license I am modifying the request slightly from the original. Enclosed please find the Delegation of Authority appointing myself as the Radiation Safety Officer.

In addition, please amend our Radioactive Material License to delete the following physicians as authorized users for radioactive material identified in 10 CFR35.100 and 10 CFR35.200:

1. Julee K. Holyater, MD
2. Bradley K. Cruz, MD
3. Lester D. Lewis, MD
4. Lawrence P. Wood, MD.

Please amend our Radioactive Material License to add the following physicians as authorized users for radioactive material identified in 10 CFR35.100 and 10 CFR35.200:

1. Alan E. Skolnick, MD, FACC
2. Mario Binder, MD, FACC
3. Mark A. Selland, MD, FACC

We will apply for an additional amendment appointing the other physicians once all of the required materials are available. Thank you so much for consideration. Please do not hesitate to contact me for additional information.

Sincerely,

Alan E. Skolnick, MD, FACC
Radiation Safety Officer

You, Alan E. Skolnick, MD, FACC, have been appointed Radiation Safety Officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the RADIATION PROTECTION PROGRAM; identifying radiation protection problems; initiating, recommending, or providing corrective action; verifying implementation of corrective action; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet these responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend three hours per week conducting radiation protection activities.

Baxter Burton, CEO
