The subject deficiency was initially reported to NRC-OIE Inspector  
A. K. Hardin on February 2, 1983 in accordance with 10 CFR 50.55(e) as NCR GEN  
WEB 8301. Interim reports were submitted on March 2 and June 27, 1983, and  
our final report was submitted on September 27, 1983. Below is our  
supplemental final report.

As discussed with NRC-OIE Region II Inspector Al Ignatonis on September 4,

unit 2 was not met. The required work is being rescheduled to be commensurate  
with the unit 2 fuel load schedule. The corrective action on this matter will  
be completed by December 26, 1985.
