Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - VOLUME CONTROL TANK LEVEL
INSTRUMENTATION

As discussed with T. Gibbons on July 1, 1982, TVA evaluated the subject concern identified by the Westinghouse letter of May 21, 1981 from T. M. Anderson (Westinghouse) to Victor Stello (NRC) and determined that it was not reportable for Sequoyah or Watts Bar Nuclear Plant under 10 CFR 50.55(e) or 10 CFR 21. Specifics of this evaluation were discussed with Mr. Gibbons.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
