Subject: Pre-RAI Telephone conference

Greg,

Our technical reviewer is requesting a telephone conference on Turbine Gland Seal System. The purpose of this call is to clarify design information in the application. Hopefully, it would either simplify the RAI or remove the need for it.

I suggest a telephone call tomorrow (Friday, 8/01) at 10 am (EST). If this time is not convenient, please suggest an alternate. I'll call (362) 972-4626 unless advised otherwise.

Regards

Tom Tai
