TVA WELDING PROJECT FINAL REPORT

On January 17, 1986, TVA submitted to NRC a plan for review of the TVA welding program. That program includes reviews of the commitments made to NRC, commitment implementation at each of our nuclear plants, and a programmatic evaluation. The plant specific reviews have been completed and results submitted to NRC for all plants except Bellefonte which is in a deferred status.

Enclosed is Volume VIII, Welding Project Final Report, which summarizes in Sections 2 through 5 the results of the plant specific reviews and provides the results of TVA's programmatic evaluation, including root cause analyses, weld project recommendations, and TVA's recurrence control plan.

Enclosure 2 is a list of commitments made in the final report. If you have any questions regarding this report, please telephone R. H. Shell at (615) 751-8087.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
