Dear Mr. Crutchfield:

NUCLEAR POWER - ORGANIZATION AND SENIOR MANAGEMENT CHANGES

The purpose of this letter is to inform you of temporary changes in the assignment of senior managers.

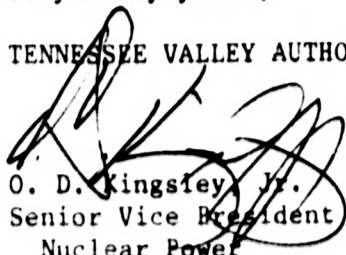

Nick Kazanas, Vice President, Nuclear Assurance and Services (NA&S), will provide overall direction to modifications, engineering, and project management at Browns Ferry Nuclear Plant (BFN). This assignment will provide increased management attention to completion of modifications required for restart including those associated with environmental qualification, Three Mile Island Lessons Learned, and fire protection. This temporary assignment will end when restart work for BFN unit 2 is complete and preliminary planning for recovery of BFN unit 3 is accomplished.

Mr. Kazanas will continue as Vice President, NA&S, and this special assignment does not constitute a job change or reorganization. However, during the interim, Mark Medford, Vice President, Nuclear Technology and Licensing, will provide management direction to Quality Assurance and the Nuclear Manager's Review Group.

This special assignment will allow Joe Bynum, Vice President, Nuclear Power Production and Interim Sequoyah Site Director, to concentrate his attention on Sequoyah until a new site director has been recruited. It will also allow Ike Zeringue, BFN Site Director, to provide increased management attention to the operational readiness aspects required for BFN unit 2 restart such as implementation of an effective maintenance program, improvements in the surveillance test program, efforts to reduce personnel errors, and enhancement of plant procedures.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

O. D. Kingsley, Jr.
Senior Vice President
Nuclear Power
