TVA WELDING PROJECT FINAL REPORT COMMITMENT DATE CHANGE

By letter to NRC dated August 25, 1989, TVA submitted the Welding Project Final Report. In this letter, TVA committed to consolidate the TVA nuclear welding program into a corporate standard to provide a unified program by January 15, 1990. Since the submittal of this letter, TVA has been involved in the preparation of this standard. Because of the number of comments received from various internal TVA organizations in the process of issuing the corporate standard, the document can not be completed by this date as originally committed. TVA will complete this commitment by March 30, 1990. Other commitments made in the August submittal contingent on this date will be delayed accordingly. This schedule change was coordinated and discussed with Dave Smith of NRR on January 10, 1990. If you have further questions on this matter, please telephone R. H. Shell at (615) 751-2474.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
