Task Order No. 008
PAR: NRC-026/008

Subject: Modification No. 9 - Review of Watts Bar Open
Items, CDR's, Employee Concerns, and MC 2512
Reconstitution

Dear Ms. Cooper:

Submitted here with are an original and two copies of the subject task modification in response to Modification No. 9 to the Statement of Work received by FAX on December 9, 1994 and confirms my telephone conversation on December 9, 1994 with Ms. Cooper.

This modification reduces the level of effort for the resolution of open items and substitutes an equal level of effort for the evaluation of MC 2512 documentation and confirmation that the construction inspection program has been adequately completed.

These changes will not affect our last pricing proposal (Mod. No. 7) and no cost increase or decrease will be required.

If you have any questions on this modification, please do not hesitate to call.

Very truly yours,

PARAMETER, Inc.
