Tennessee Valley Authority  
ATTN: Mr. H. G. Parris  
Manager of Power  
500A Chestnut Street Tower II  
Chattanooga, TN 37401

Gentlemen:

SUBJECT: REPORT NOS. 50-390/82-29 AND 50-391/82-26

Thank you for your supplemental response of December 9, 1983, to our Notice of Deviation issued on August 27, 1982, concerning activities conducted under NRC Construction Permit Nos. CPPR-91 and CPPR-92. Based on the telephone conversation of December 27, 1983 between Mr. H. J. Fisher of your staff and Mr. T. E. Conlon of this office, it is our understanding that TVA's quality assurance program procedures are to be revised to require documentation of the construction inspection and tests conducted on the fire protection systems. The revision to Procedure WBN-QCI 1.39, Fire Protection Quality Assurance Program, will require documentation of the independent verification inspections and tests which are to be conducted by representatives of the responsible engineering unit. Attachments J and K to Procedure WBN-QCI 1.39 are to be revised to document the electrical overload protection and splicing inspections and Attachment J is to provide documentation of the internal wiring inspection. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

Richard C. Lewis, Director  
Division of Project and  
Resident Programs
