Manager of Power and Engineering  
500A Chestnut Street Tower II

Gentlemen:

SUBJECT: REPORT NOS. 50-390/84-51 AND 50-391/84-40

Thank you for your letter of October 3, 1984, concerning activities of the Watts Bar facility as authorized by NRC Construction Permit Nos. CPPR-91 and CPPR-92 brought to your attention in our letter of August 8, 1984.

Regarding the apparent violation, we have evaluated the additional information provided in your response concerning ECN Completion Sheets. Based on our review of this matter, we concur with your position and our records have been revised to delete this violation.

However, we find the first sentence of paragraph 7.1 to ECN procedure WBNP-QCI 1.09 R7 ambiguous to the point that it could be misinterpreted by site personnel to mean that Completion Sheets may be used for verification of work completion. To remove any doubt, this sentence should be revised to agree with the intent of this procedure as described in your response which stated that the Completion Sheet may be used for administrative convenience only.

We appreciate your cooperation in this matter.

Sincerely,
