Attn: Mr. James P. O'Reilly, Regional Administrator
101 Marietta Street, NW, Suite 2900
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - CONTAINMENT PENETRATION PROTECTION
- WBRD-50-390/82-07, WBRD-50-391/82-70 - SUPPLEMENTAL FINAL REPORT

The subject deficiency was initially reported to NRC-OIE Inspector R. V. Crlenjak on December 7, 1981 in accordance with 10 CFR 50.55(e) as NCR WBN EEB 8111. Our first interim report covering unit 1 was submitted on January 26, 1982. TVA has expanded this deficiency to cover unit 2. A subsequent interim report covering both units was submitted on July 30, 1982. Our final report was submitted on November 17, 1982.

As discussed with NRC-OIE Inspector Linda Watson on June 14, 1983, the completion date of June 15, 1983 for unit 2 was inadvertently specified in our final report. The correct completion date for unit 2 is August 15, 1984. Please correct your records accordingly.

If you have any questions, please get in touch with R. H. Shell at
FTS 858-2688.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
