Jack -

Thanks for taking the time to put together the document that addresses our questions. Your replies have helped understand the implications of a sale on the property and how this may impact the LTSP.

As I mentioned before, our involvement in the process now would be through any changes that would be made to the LTSP. As the LTSP serves as DOE's license for the Canonsburg site, any changes to the LTSP would need to be approved before they are implemented (i.e., our interpretation is that the LTSP should be modified before the property sale occurs). We would work to complete our review in a timely fashion.

I will be happy to schedule a conference call to discuss this further with you. I will plan on following up with you on Monday 8/18.

Doug

Doug:

Attached word document provides response to questions you asked in two e-mail messages (July 21 and July 23).

I think that some minor changes to the draft LTSP are needed, and I will be evaluating that over the next few weeks. I consider that such changes are not a prerequisite for the sale of Tract 117-E, and appreciate your assistance in working towards a timely disposition of this property.

Please contact me after you have reviewed the attached information so that we can discuss how to proceed.

Sincerely,
Jack
