Subject: Docket No. PRM-50-90 - Ban civil use of highly enriched uranium

DOCKETED
USNRC

August 19, 2008 (3:28pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Secretary, U.S. Nuclear Regulatory Commission
Attention: Rulemaking and Adjudications staff Washington, DC 20555

Dear NRC commissioners and staff,

May I ask why an extremely toxic and radioactive technology such as nuclear power is being sought by the United States Government while it possesses Nikola Tesla's limitless radiant energy? Why choose nuclear power when it can obliterate all life from the face of the Earth? At the rate nuclear power is being marketed around the world under the false pretense as the solution to replace fossil fuels one has to question the diligence behind it. Clearly, the US Government does not serve the nation's interests nor the wellbeing of planet Earth.

Not only can nuclear stations be used for the construction of atomic bombs but they could bring a nuclear holocaust. Planet Earth is at a critical imbalance now. Earth changes are upon us. Mother Earth is showing strong signs that something is not well. The increased number of storms, quakes and volcanic eruptions are an attempt to bring mankind to its senses and to pay attention. Scientists know the Earth is close to shift on its axis. The repercussions could be devastating to all life if nuclear stations explode and rain down their radioactive poison all over the planet.

Scientists invented nuclear power but they have not discovered how to neutralize radioactivity. Humans have to evolve beyond this technology of destruction before it is too late. The name human means Higher Universal Man, yet man behaves in a backward, primitive and barbaric manner towards one another. The trillions of dollars being spent in the wars of Iraq and Afghanistan could be well spent on reforming the current, archaic education and health systems, and significantly improve the lives of all human beings.

Economic growth and globalization are driven by greediness. Governments are no longer serving the interests of its citizens but the Corporate top executives who are nothing more than King Midas copy cats. The narrow vision of Bankers and Corporate executives prevented a sound, clean energy invented by Tesla from ever becoming mainstream. The "great robber barons" such as J.P. Morgan, and Rockefeller enslaved by their self-importance and self-interests were not interested in a free energy. And now the world is seventy percent polluted, facing global warming and the war in Iraq. These are indeed "crazy" economics.

Planet Earth gave mankind life. Every body cell contains minerals from the Earth. This planet is a miracle and must be regarded with respect and dignity, for it has given generously the humankind an array of food, and natural resources, but it was not designed to sustain indefinitely the greed of a few. Therefore, I plead with you to do everything in your power to stop this "nuclear insanity" while there is time to correct the errors of the past; and bring back Tesla's free energy.

Sincerely,

Rozlynn Silver
