Since January 13, 1986, when I became TVA's Manager of Nuclear Power, I have been conducting an evaluation of TVA's nuclear program. As a result of this evaluation, Volume I of TVA's Nuclear Performance Plan submitted to you on November 1, 1985 is being rewritten. You should discontinue your review of Volume I until I provide a revised version which will be provided to you once I complete my evaluation.

I appreciate your understanding in this matter.

Very truly yours,
