Mr. W. William Brach, Director  
Division of Spent Fuel Storage and Transportation  
Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Mail Stop EBB-3D-02M  
Washington, DC 20555-0001

Reference: 1. USNRC Docket No. 72-1008 (HI-STAR 100) and 72-1014 (HI-STORM 100)  
2. NRC Letter from E. William Brach (NRC) to K. P. Singh (Holtec) dated July 22, 2008

Subject: Spent Fuel Storage Cask Security Assessments

Dear Mr. Brach,

We appreciate the opportunity for a discussion on security assessments performed by the NRC, as outlined in your letter dated July 22 (Reference 2). Based on the three options offered in that letter, Holtec prefers a meeting where NRC will present assessment details including Safeguards Information (SGI). Holtec requests to have four of its employees qualified to receive SGI and to attend the meeting. Two of those are US citizens, while the other two are foreign nationals with permanent resident status in the US. As soon as we receive details about the necessary qualification process, we will initiate the required actions immediately.

Please feel free to contact me if you have any questions.

Sincerely,

  
Dr. K. P. Singh  
President and CEO  
Holtec International

  
Dr.-Ing. Stefan Anton  
Director, Technical Services and Licensing  
Holtec International
