Dear NRC:

03022173

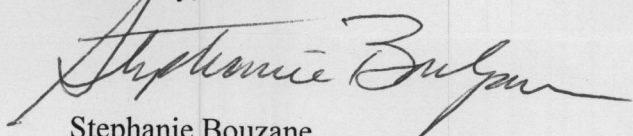

Re: License No. 29-20974-01

This letter is being submitted to you to request certain amendments to our current NRC Byproduct Material License. Our current license, Amendment No. 16, dated July 27, 2008, due to expire on June 30, 2012, describes our current program. Please make the following changes to that document:

- Please remove Item D. from Section 6 byproduct source and/or special nuclear material – Gadolinium 153 line source. As requested in our letter dated May 1, 2008, the equipment has been decommissioned and removed from the facility.
- Please remove Jeana S. Oh, M.D. from this license. She is no longer employed with Hopewell Radiology Group, L.P.

Please feel free to contact me at (732) 821-5563 Extension 1230 with any questions you may have.

Sincerely,

Stephanie Bouzane
Director of Communications
