Dear Mr. Lawyer,

On August 4, 2008 you requested three items of additional information to support the Army Research Laboratory's (ARL) request for an amendment to Byproduct Material License Number 19-12056-02.

The following is the requested information:

- a. All users of the sources will be approved by the ARL Radiation Safety Committee.
- b. Routine Cleaning and Lubrication of the device will be performed by ARL. However, all Non-Routine Maintenance will only be performed by the manufacturer.
- c. ARL requests authorization to procure one device for a maximum of 11 mCi (407 MBq) of Cesium-137 and 44 mCi (1.63 GBq) as sealed sources.

If you have any questions, please contact Richard A. Markland (410)278-6354, markland@arl.army.mil.

Sincerely,

PAMELA E. FRY
Experimentation Support Manager
