SUPPLEMENTAL INFORMATION

The subject deficiency was initially reported to NRC-OIE Inspector D. Quick on August 12, 1982 in accordance with 10 CFR 50.55(e) as NCR WB-M-82-06. Our first interim report was submitted on September 13, 1982. Our final report was submitted on February 17, 1983. A revised final report was submitted on February 28, 1983. Due to oversight, the date of May 13, 1983 was inadvertently specified in our previous submittal for the completion of all corrective actions associated with this NCR. The May 13, 1983 completion date applies only to the unit 1 work. The unit 2 work is scheduled to be completed by July 29, 1984. Please revise your records accordingly.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,
