Subject: UniStar Nuclear Energy, NRC Docket No. 52-016
Submittal of Corrected Revision 3 to the Combined License Application for
the Calvert Cliffs Nuclear Power Plant, Unit 3

Reference: Letter UN#08-025, G. Vanderheyden (UniStar Nuclear Energy) to
Document Control Desk (U.S. Nuclear Regulatory Commission) "UniStar
Nuclear Energy, NRC Docket No. 52-016, Submittal of Revision 3 to the
Combined License Application for the Calvert Cliffs Nuclear Power Plant,
Unit 3, and Application for Withholding Documents," dated August 1, 2008

Provided herein are DVD disks (dated 8/20/2008) providing corrections to Revision 3 of the Calvert Cliffs Nuclear Power Plant, Unit 3 Combined License (i.e., COL) application as was previously submitted by the cited Reference. The corrections to the COL application are made to the page numbering of the revised "red-line" sections that were divided into multiple parts because of file size considerations. The corrections will provide sequential page numbering between files rather than overlapping or skipped page numbering that result as a function of "red-lining." No other changes are made to the files as previously submitted by the cited Reference.

The DVD disk provided in Enclosure 1 is the Public Disk, and consists of a redacted version of Revision 3. Enclosure 2 is the Non-Public Disk, and contains non-redacted sensitive and non-public specific Parts to the COL application. The request for withholding information from public disclosure as provided in the cited Reference for Revision 3 continues to apply to this corrected version of Revision 3.

The following Disclaimer is provided as directed by "Guidance for Electronic Submittals to the NRC," November 20, 2007, Revision 3. This submittal contains PDF files, one or more of which contains hyperlinks to other files. These hyperlinks are either inoperable or are not essential to the use of the filing. Any material referenced by a hyperlink to another PDF that was essential for the use of this filing has either been included by reference or submitted as part of this filing.
