I second Brent's comments. One of the expectations for the PM's is to make sure that the TO's are in place by the time the COLAs are submitted.

We understand. We'll do our best to have the task orders (and \$) in place to enable you to start and finish on schedule. ---Brent

Butch and Brent:

I understand from Tara's notes from the Thursday afternoon conference call that Barry is preparing the Task Order for South Texas Project (which is what I expected). I just want to keep you aware that the contracting issues can't be overlooked when discussing schedules, especially when we are talking about having some good appreciation for acceptance of the application in about a week after receipt. If we can't get the application in a timely fashion and if the Task Orders aren't in place, then we lose valuable time!!

Thanks

Eva
