Subject: RE: Environmental Impact Public Meetings

Alan-

I spoke to one of our senior level staff members and he recommended that we should consider having one of the members of DCIP from headquarters attend the meeting. We have learned that at the previous Scoping public meetings, we have gotten a handful of questions on that subject matter; but sending someone all the way from Region II may not be necessary, until we get a better feeling on how these meetings will unfold.

I left a phone message with the Lead/Safety PM, Tom Kevern, regarding this matter and will work with him on acquiring someone from the NRO-DCIP headquarters. We will keep you in the loop regarding the outcome.

Thanx
Alicia

Subject: Environmental Impact Public Meetings

Alicia,

As per our discussion on Region II Construction attending the Environment Impact Review Public Meetings we typically do not attend and we do not believe that we have the needed expertise to answer questions related to environment impacts. Based on this information and our previous discussion I do not need a response on Region II construction attending the meetings, unless there is need for Region II Construction to attend the meetings.
