Ms. Williamson,

I am Region 3 's HQ (Washington, DC) counterpart for the review of nuclear power EISs. I am very interested in participating in the North Anna site visit. I would also appreciate an agenda when it becomes available.

Regards,

Marthea Rountree

Subject  
North Anna Power Station Combined  
Operating License  
Application--Louisa County, VA

The Nuclear Regulatory Commission has begun the review of the Combined Operating License (COL) application for North Anna Power Station in Louisa County, Virginia. A copy of the COL application including the environmental report can be found on NRC's website at <http://www.nrc.gov/reactors/new-licensing/col/north-anna.html>.

The NRC environmental review team is planning to visit the proposed plant site during the week of April 14, 2008 as well as host an environmental scoping meeting on April 16. EPA and NRC management have agreed that we should inform you and involve your regional staff in the COL reviews at the earliest opportunity. In that spirit, if one or two people from your Region 3 office would like to participate in the site visit with our team, please contact the NRC environmental project manager, Alicia Williamson at (301) 415-1878 or [arw1@nrc.gov](mailto:arw1@nrc.gov).
