We have planned for Dominion to give a brief talk on the new and significant process during the kickoff meeting on Monday. Then during the breakout sessions with the various disciplines, more detailed discussions can take place.

As for your departure after Wednesday, you read the schedule correctly. Paul Hendrickson is planning to leave Wednesday afternoon and the Scoping meeting will be held on Wednesday night, therefore I didn't think you should have to stick around. Now if you are okay with staying by all means please do :-)

We are planning to have a meeting with VDEQ, VGIF and other state agencies on Thursday afternoon. I'm sure your presence would be greatly appreciated.

It's totally up to you whether to take off or "hang out."

Thanx

Alicia

I could only take a brief look at the draft schedule and in general it looks OK. I couldn't tell if any time had been set aside for a discussion of the new and significant process. Is the expectation that each specialist will discuss the specific application of the process to their area(s) as opposed to a more general discussion? I'm not saying one way is better than another. I just want to make sure we have it covered somewhere.

Also, I note that I disappear from the schedule after Wednesday. Do you expect I will be done by that time? Should I plan to remain in a support role regardless? I've set the entire week aside.
