**Subject:** Inventory of NRC Licensed Material at New Haven Depot

The attached listing was inventoried today (6/18/03) as per the below DNSC Occupational Radiation Protection Program referenced paragraph.

Michael – I think I have included all of the radioactive material here at the depot. If I am missing any, please let me know and we will get it on the list right away.

Thanks,

Lois  
RPO

**Subject:** FW: Inventories of Licensed Material.

The required written documentation of annual physical inventories noted in the previous memo of 4/18/03 have not been received from RPO's at the following locations:

Binghamton  
Curtis Bay  
Hammond  
New Haven

Ref:DNSCOccupational Radiation ProtectionProgram:

***"4.10 Depot RPO's shall conduct a physical inventory of all NRC licensed material once each fiscal year. This inventory shall be documented in writing and kept on file at the depot. A copy shall be forwarded to the ORPM..."***

Please be advised that we have received no inventory reports for any location to date. Additionally, during a recent visit, we were unable to find any report in the files at Curtis Bay. We would appreciate your reminding the Depot RPO's to provide us with reports.
