Attn: Dr. J. Nelson Grace, Regional Administrator
101 Marietta Street, NW, Suite 2900
Atlanta, Georgia 30323

Dear Dr. Grace:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - INCOMPLETE COMMITMENTS TO NRC
- WBRD-50-390/85-02, WBRD-50-391/85-01 - SECOND SUPPLEMENTAL FINAL REPORT

The subject deficiency was initially reported to NRC-OIE Inspector Al Ignatonis on December 14, 1984 in accordance with 10 CFR 50.55(e) as NCR WBN NEB 8419. Our final report and first supplemental final report were submitted on February 1, 1985 and May 3, 1985, respectively. Below is our second supplemental final report.

As discussed with NRC-OIE Region II Inspector A. Ignatonis on July 18, 1985, the date of July 22, 1985 for completion of corrective actions indicated in our first supplemental final report on this matter would not be met. The unit 2 commitment tracking record verification has being rescheduled due to additional work needed to identify the implementing documentation for these commitments. The corrective actions on this matter will be completed by September 16, 1985.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
