Importance: High

Laura:

We submitted our proposal for the North Anna Environmental Review today to Elinor Cunningham. The proposed team is as follows:

Project Team Leader - Bill Sandusky
Deputy Team Leader - Adam Davis
Air Quality/Meteorology - Carl Berkowitz Surface Water Hydrology - Lance Vail Ground Water Hydrology - Phil Meyer Health Physics/Accidents/Decommissioning - Greg Stoetzel Socioeconomics/EJ/Cost Benefit - Mike Scott Terrestrial Ecologist - Mike Sackschewsky Transportation - Phil Darling Aquatic Ecology - Jeff Ward Cultural Resources - Doug McFarland Land Use/Need for Power/Alternatives - Paul Hendrickson

Eva is the overall Project Manager.

I can provide resumes, if necessary, but they are also contained with the proposal. Most of these folks I believe that you have met and many worked on the North Anna ESP activity. Any specific questions regarding the proposal or team members should be initially directed to Eva. I'll try to help out if she is unavailable.

Hi Laura:

I believe that Eva is considering changing the proposed team structure based on the delay of Calvert Cliffs and Summer COLAs. Our proposed team structure will be provided in our proposal once we get the task order request. Eva has indicated to me that I will remain as the lead this COLA activity. Once I know any specifics, I will pass that information along to you. Thanks for providing the information regarding the NRC team.
