Re: Request for amendment to NRC License 13-26785-01

Dear NRC:

The licensee, Black Beauty Coal Company, hereby requests the amendments specified below to Radioactive Material License number **13-26785-01**. These amendments are requested for the purpose of correcting the information about the device model number and quantity of sources contained in the SABIA XC-25 Series material analyzers at two licensee facility locations. The licensee possesses two SABIA XC-25 Series materials analyzers, one located at the Farmersburg Mine, address 5526 East French Drive, Pimento, Indiana, and one located at the Somerville Central Mine, address R.R. #3, Box 155, Oakland City, Indiana.

The following amendment of language is requested under **Item 8C**:

Change From: "2 sources not to exceed 27 millicuries each."

Change To: "12 sources not to exceed 27 millicuries total."

The following amendment of language is requested under **Item 9C**:

Change From: "To be used in SABIA Model XC-50 Series material analyzers for analysis of the chemical elemental composition of coal."

Change To: "To be used in SABIA Model XC-25 Series material analyzers for analysis of the chemical elemental composition of coal."

Thank you for your attention in this matter. If you have any questions, please contact me at (812) 434-8537.

Sincerely,

Robert L. Dyer
