Dear Mr. Null,

Pursuant to our conversation on August 20, 2008, and regarding bioassay testing and survey wipe testing, we would like to alter and clarify our proposed changes from our submitted letter dated 26 June 2008.

We propose the following:

1. Move survey wipe testing, of unrestricted areas, to a quarterly schedule.
2. Move scheduled bioassay testing of non-occupational workers to a 6-month schedule.
3. Commit to additional required bioassay testing of all workers (i.e., occupational and non-occupational) that may have been exposed to contamination discovered in an unrestricted area.

Sincerely,

CAMMENGA AND ASSOCIATES

Michael Pastoor  
Vice President/Operations  
Radiation Safety Officer
