## TELEPHONE CONVERSATION RECORD

Date: August 27, 2008

Time: 2:19pm

Mail Control 142645 License No(s). 29-30031-01 Docket No(s). 03033128  
or Report No(s).

Name of Licensee: Enzon  
Pharmaceuticals

Name of Participant(s): David  
Filpula

Telephone No. 732-980-4941

Subject: Use of radioactive  
Material

(NOTE: This will be used as the  
Documents Title in ADAMS)

Summary: During the review of the license renewal application and looking through the docket file, it appeared that during the last two inspections (2005 and 2007), the licensee was not using any radioactive materials and there were none on site. At the time of the 2007 inspection, the licensee told the inspector that the need for the license would be considered including considerations of termination. I contacted Dr. Filpula to inquire about the licensee's intent to use radioactive materials. Dr. Filpula stated that the licensee has considered the use of radioactive materials and have determined that they would like to keep the license and proceed with the renewal. He stated that the licensee does have projects that may like to use the material but to date, still does not have any material. I explained to Dr. Filpula 10 CFR 30.36(d) and he said he was aware of that but would still like to maintain the license for future use.
