

Dr. Shirley Ann Jackson - Watts Bar
I am writing you to ask you

to not issue a Full Operating
License to the Watts Bar Nuclear
Plant and to ask you to Revoke
the low energy operating license.

With other alternative ways to get
energy there is no reason for a
nuclear plant. They have a history
of safety problems and there is
no safe way to deal with nuclear
waste. I am 15 years old and I
am part of the future of this
country. I would like to inherit
the healthiest world possible and
not have to worry about previous
generations' mistakes.

Sincerely,

Deah Hanzlicek
