As you are aware, TVA has made major organization changes in the Office of Nuclear Power (ONP) as documented in our revised Corporate Performance Plan. Also, a number of changes have been made in the ONP Licensing organization. The purpose of this letter is to inform you of the new licensing contacts in the Division of Nuclear Safety and Licensing and to request changes in the distribution lists on NRC letters to TVA.

First, I request that you inform your staffs that all NRC letters to TVA contain only the distribution lists of TVA employees as outlined in the enclosure. These lists also apply to Safeguards Information. My staff will handle any further distribution of these letters inside TVA as needed. Please do not make any additions or deletions to the enclosed lists without formal notification from my office.

Secondly, the normal points of contact for plant licensing matters have changed as a result of TVA organizational changes. The contacts are as follows:

Generic Licensing

The Generic Licensing Branch is responsible for TVA licensing that is generic in nature. These activities include generic issues, requirements, and regulations including unresolved safety issues and generic letters and IE bulletins. This branch manages TVA's Corporate Commitment Tracking System for TVA commitments made to NRC.

The normal points of contact for generic licensing matters are as follows:

Generic Licensing Manager	Dennis E. McCloud Telephone (615) 751-4876
Regulatory Programs Licensing Manager	Joseph D. Ziegler Telephone (615) 751-8077
Compliance Management Supervisor (Acting)	Dennis E. McCloud Telephone (615) 751-4876

Your cooperation in working with us through these new points of contact and implementing the enclosed distribution lists will be greatly appreciated.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
