Dear Mr. Bosanko:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I have prepared the enclosed documents in response to your letter dated August 4, 2004 (Verification of Sensitive But Unclassified (SBU) Markings). Enclosure 1 identifies the SBU marking that is no longer in use at the NRC as well as the identification of SBU marking authorities that have been updated since December 2005. No SBU markings, currently in use, were noted as missing from the previously-provided inventory. Enclosures 2 through 8 are physical copies of the authoritative sources that have been updated since December 2005. In addition to the physical copies of the authoritative sources, I have included an all-inclusive compact disc, Enclosure 9, that contains an electronic version of the authoritative sources for ease of research.

If you have any questions, comments or concerns regarding this letter or NRC's planned procedures for implementing the Controlled Unclassified Information policy standards and implementation guidance, please direct them to my office. I can be reached at Darren.Ash@nrc.gov or (301) 415-7443.
