TVA NUCLEAR QUALITY ASSURANCE (NQA) PLAN - (TVA-NQA-PLN89-A) -
UPDATE - REVISION 8

This letter transmits the NQA Plan, Revision 8, in Enclosure 1. The NQA Plan is provided in accordance with 10 CFR 50.54(a)(3) and 10 CFR 50.55(f)(3). Enclosure 2 itemizes the changes to the NQA Plan since Revision 7 was implemented and provides appropriate justification.

The changes in Revision 8 do not represent a reduction in commitment from the previous revision. They involve clarification of some functional responsibilities, reflect updated organizational charts, new position titles, and other refinements, and include site-specific plant review requirements that have been consolidated in Section 9.9. Plant review requirements in Section 9.9 that are unique to a particular site were not changed. A future revision is planned to further standardize this section.

If you have questions, please contact R. M. Brown at (423) 751-6673.

Sincerely,

Mark J. Burzynski
Manager
Nuclear Licensing
