Subject: 2008 Surety Update Acceptance Review

Dear Mr. Paulson:

By letter dated July 23, 2008, Kennecott Uranium Company (KUC) provided its 2008 surety update to U.S. Nuclear Regulatory Commission (NRC) staff. The staff has performed an acceptance review of KUC's submittal and has determined that it is acceptable for detailed technical review. This technical review is ongoing, and we expect to complete it by early September 2008. If issues requiring additional information are identified during our review, the staff will issue a request for additional information (RAI). If no such issues are identified, the staff will issue the license amendment. If you have any questions, please contact me.

Sincerely,

Stephen J. Cohen
