By the November 1, 1985 letter from C. H. Dean to W. J. Dircks, we provided a response pursuant to 10 CFR 50.54(f) to the NRC concerns identified in the September 17, 1985 letter from Mr. Dircks to Mr. Dean. The November 1, letter provided Volumes 1 and 2 of the TVA Nuclear Performance Plan (NPP), respectively, for our Corporate organization and the Sequoyah Nuclear Plant.

In section 3.3 of Volume 1 and in section III.3 of Volume 2, we indicated that our quality assurance organization would be decentralized. We plan to revise Volumes 1 and 2 to reflect our decision to reevaluate the decentralization of the quality assurance organization. These revised pages will be provided to NRC at a later date. Also, as previously indicated to members of your staff, we are delaying the date for submittal of Volume 3 of the Nuclear Performance Plan for the Browns Ferry Nuclear Plant until February 17, 1986.
