RE: License No. 48-26074-01
Amendment/Changes

Gentlemen:

We hereby request the following amendment/change to our current license:

Item 10

Midwest Engineering Services has moved our St. Charles, Missouri operation. Please delete the 3705 Mueller Road, St. Charles, Missouri location from our license. We proposed to store and maintain licensed material (moisture/density gauges) at the following location:

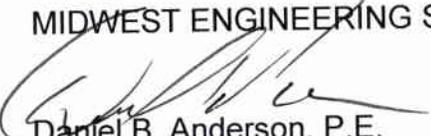

Midwest Engineering Services, Inc.
74 Algana, Court
St. Peters, Missouri 63376

The attached drawing shows the gauge storage location. Access control to the licensed material will be provided by limiting key access to the storage cabinet, gauge shipping container, and density gauge to authorized users only.

If you have any questions, please do not hesitate to call.

Sincerely yours,

MIDWEST ENGINEERING SERVICES, INC,

Daniel B. Anderson, P.E.
Branch Manager
