Gentlemen:

In the Matter of) Docket No. 50-390
Tennessee Valley Authority) 50-391

WATTS BAR NUCLEAR PLANT (WBN) UNIT 1 AND 2 - PHYSICAL SECURITY AND
CONTINGENCY PLAN (PS/CP) REVISION 2

Pursuant to 10 CFR 50.54(p), this letter provides Revision 2 of the PS/CP which supersedes Revision 1 submitted on December 11, 1997, in its entirety. This revision was necessary to incorporate changes to implement the contract guard force. Other changes include implementation of the revised 10 CFR 73.55(d)(1), (4), and (7) and minor editorial changes. TVA has evaluated these changes and does not consider these revisions to decrease the overall effectiveness of the security plan. Revision 2 was reviewed by Region II Inspector D. Thompson during the inspection conducted March 1-3, 1998, at WBN.

Enclosed are four copies (Nos. 6 through 9) assigned to NRC. Copies 10 and 11 are being provided to Region II by copy of this letter. The information is being sent by certified mail and the signed receipt will signify that NRC has received this information and acknowledged that it contains safeguards material to be protected in accordance with 10 CFR 73.21, "Requirements for the Protection of Safeguards Information." This receipt will also provide verification to TVA that the superseded WBN PS/CP Revision 1 will be destroyed and replaced by the enclosed PS/CP, Revision 2.
