Dear Mr. Butner:

Thank you for your August 13, 2008, letter responding to the final Integrated Materials Performance Evaluation Program (IMPEP) report and letter dated July 17, 2008. U.S. Nuclear Regulatory Commission (NRC) staff has reviewed your response to the recommendations made in the final IMPEP report and believe that your proposed actions adequately address the recommendations.

A periodic meeting will be conducted with your program in approximately 12 months from the April 2008 IMPEP review. The periodic meetings were created to help NRC and Agreement States remain knowledgeable of their respective programs and to plan for the next IMPEP review. As indicated in the final IMPEP report, the next full IMPEP review is tentatively scheduled for April 2012. During the periodic meeting and at the next IMPEP review in 2012, we will evaluate the effectiveness of your response to our recommendations, as well as the implementation of your overall program.

I appreciate the positive actions that you and your staff are taking to address the recommendations. I also wish to acknowledge your continued support for the Agreement State program. I look forward to our agencies continuing to work cooperatively in the future.

Sincerely,

/RA/
