Subject: Baxter Aibonito - Safety Survey

Ms. Miller:

During your recent visit to our facility, we discussed the completion of our commitments made as a result of the ADR session last year.

While discussing the results of the Safety Culture Survey, we talked about communicating these results to the Sterilization area employees. The

purpose of this mail is to let you know that we have completed communicating and discussing the survey results and recommendations with the sterilization employees as we agreed.

Please let me know if this communication should be done in a different format or include any other person.

Regards,

Enrique Moran
